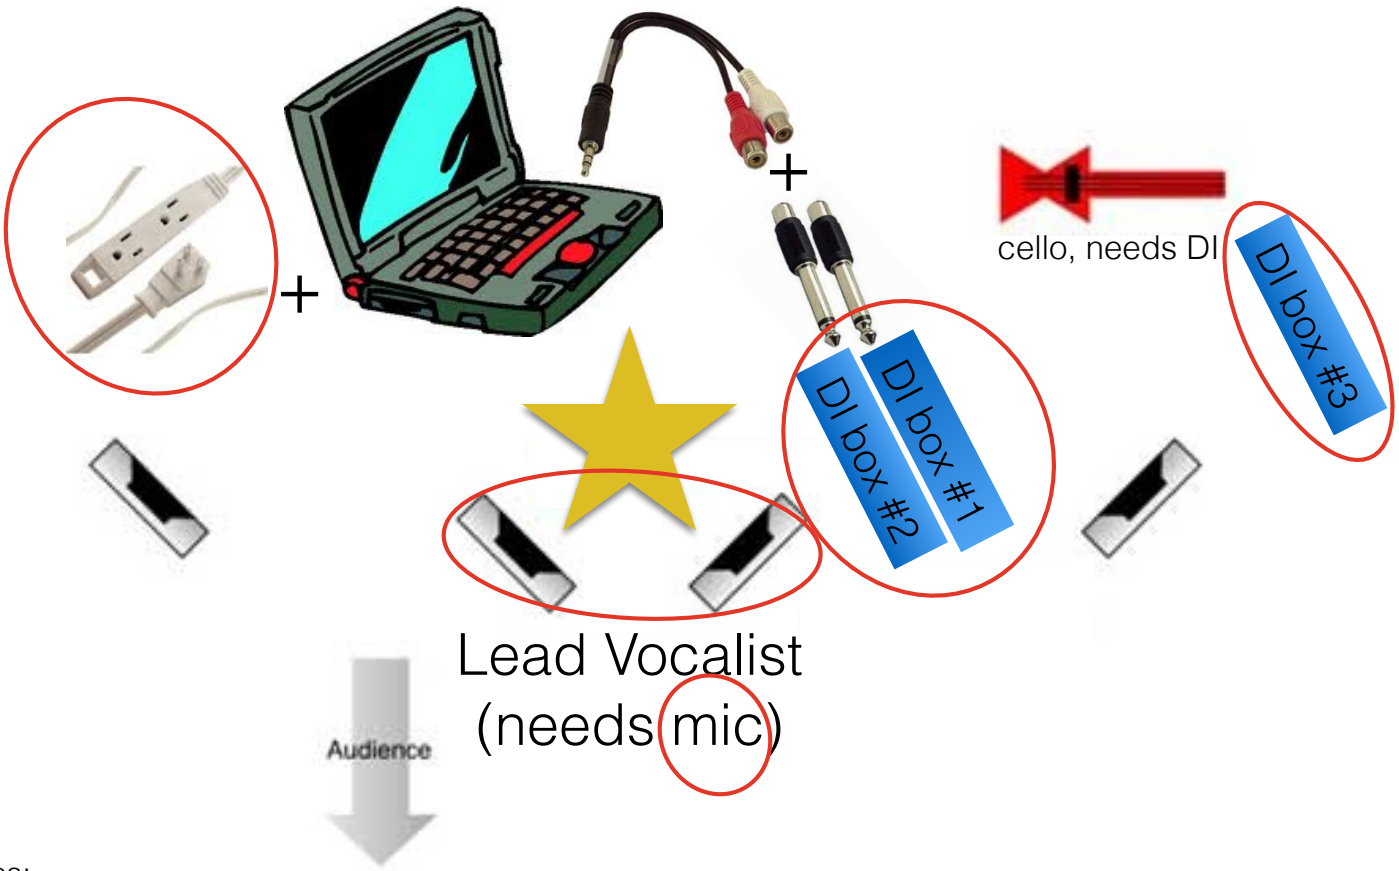
Psyche Corporation stage plot

psychecorporation@gmail.com



Notes:
-Monitors: 2x for lead singer. 2x side fills.
-Circled items need to be provided. Band brings own laptop, RCA jack, and RCA-to-quarter inch inputs, cello.
-Light reverb/delay on the vocals. In the mixing, make sure ~80% of the sound/volume is from laptop instrumentals, 20% vocals. Should be able to make out the consonants and understand the words, but vocals should not be too loud compared to backing tracks.
